#### MAIL WAS SEVERE.

Cotton in Large Section Must Be Replanted.

Commissioner M. B. Easters of Kurten was in the city today and was arranging to replant his cotton because of the hail of Wednesday night, as early as possible. Mr. Easters said the hail covered a strip of country several miles wide and five or six miles long, taking in pretty well all the country around Kurten. It also extended down into a part of the Reliance community. The cotton in the territory covered by the hail was entirely destroyed and the corn very seriously damaged. Mr. Easters says he doubts that some of the corn will come out. Cotton seed for replanting are very scarce and the farmers are experiencing difficulty in securing a supply. However, they are scraping the whole country for seed and in just a few days the destroyed territory will be replanted.

### MUST HAVE NEW RULE IN IRELAND

Future Government Must Be Conducted on an Entirely Different System.

Dublin, May 19.—Premier Asquith has reached the conclusion from impressions gathered during his Irish visit that the old form of government in Ireland has had its day. The Associated Press learns from sources in the closest touch with the premier that Mr. Asquith's conversations and conferences have convinced him that the future government must be conducted on an entirely different system.

The prime minister has taken care to learn the ideas and views of many persons other than those in purely official circles and these persons have offered greatly varied suggestions. None of these, it is believed, will be adopted in its entirety, but it is thought they might be welded together to form a proposal to lay before the cabinet. The premier himself does not know what form his proposal eventually will take and in fact it probably will be fully developed only at the cabinet meeting.

His Belfast visit gave a good hint to the premier that the Ulsterites would not accept a direct proposal implying home rule, but it is believed they might be induced to enter into a concerted plan which possibly could be arranged to meet their most serious objections.

#### FRYERS BRING BIG PRICE.

Mr. Antone Conrad of Kurten brought 14 fryers to Bryan today and sold them for \$7.50. Mr. Conrad said that he expected to get about \$3.50 for them when he left home, but when D. E. Mike, the groceryman weighed them and figured the weight at 25 cents per pound, he handed him \$7.50. He tried to give him part of the money back, thinking he had made a mistake, but was told that it was correct. Mr. Conrad says he thinks he will quit farming and raise chickens.
